OUR COMPANY

AQUA is a leading Greek company with over 20 years of experience in the production of premium car air fresheners and car care products. As pioneers in the industry, we have been dedicated to crafting innovative and high-quality fragrances since **2004**.

At **AQUA**, our expertise in perfume composition allows us to create long-lasting fragrances tailored to the unique needs of our global customers. Our commitment to innovation is reflected in our portfolio, which includes several patented technologies, such as our renowned hanging car fragrance featuring double-sided printed photos. Our diverse range of car fresheners is available in various formats, including spray aerosols, wooden designs, vent clips, and cans.

All **AQUA** products are proudly manufactured at our state-of-the-art facility in the Industrial Zone of Anoixi, Attica. We continually invest in research and development to enhance our existing offerings and create new, cutting-edge products. Our in-house aerosol line for spray bottling enables us to produce both our branded products and custom "Private Label" solutions for supermarkets and other clients. We welcome collaborations on innovative projects and are always ready to explore new opportunities.

BRIEF COMPANY HISTORY

- '04 **AQUA** was founded in 2004 as a producer of high quality car air fresheners.
- '06 In **2006**, we expanded our activities into the production of car care products, such as Dashboard Polish, Wax and Silicone Shampoo, Antifreeze, Brake and Carburetor Cleaners and many more.
- '08 In **2008**, we achieved a leadership position in the field of car air fresheners in the local market by becoming the supplier to two of the largest chains in Greece and creating our own network of representatives throughout the country.
- '09 In **2009**, with steady steps, we begin to claim market share in the global market. Since then, our products have become known in Asia (Dubai), the Far East (Singapore), Eastern Europe (Russia, Romania, Lithuania, Croatia, Kazakhstan, Moldova, Ukraine, Cyprus), France, Italy and Canada.

- '16 In **2016**, we expanded our global footprint by opening offices and a warehouse in Toronto, Canada. This strategic move was aimed at tapping into the North American market, with a particular focus on both Canada and the United States.
- '18 In **2018**, we expanded our product offerings by introducing a specialized range of pet care products.
- '23 In **2023**, we further broadened our portfolio by launching a new range of fragrances designed specifically for homes and hotels.
